WHO IS REAL LEADER OF BRITISH UNIONISTS

Great Speculation Caused by Incidents in the Commons Yesterday.

Prospects for Home Rule Peace Have Brightened Very Greatly.

(By Times Special Wire.)

Montreal, April 29--Mr. Bonar Law's offer for a resumption of the "conversations" on the Irish question between the leaders on the front benches, excited the greatest speculation regarding the internal relations of the Unionist party, says a London cable to the Daily Mail.

Mr. Bonar Law's preference to the position of leader of the Opposition when Mr. A. J. Balfour resigned was definitely planned to relieve the Unionists of the necessity for deciding between Mr. Austen Chamberlain and Mr. Walter Long. It was then agreed that Mr. Bonar Law was unlikely to become Premier of the new Unionist Government, his being a "stopgap" rule. Meanwhile Mr. Bonar Law

while admirably playing the Ulsterist-Unionist game, has compromised himself so badly that it is doubtful whether the King would summon him to form an alternative Government. Mr. Walter Long's continued illness disabled him from accepting the onerous duties of the Premiership.

Therefore, Mr. Bonar Law's specific naming of Mr. Austen Chamberlain as negotiator for the Unionists, instead of himself, is taken to indicate a decision by the Unionist party that the elections are possibly not far distant. The future Premier must reach the House of Commons. Mr. Austen Chamberlain has been notably moderate and fair in his frequent interpositions in the Parliamentary and platform contributions in the Ulster conflict. Another view taken of Mr. Bonar Law's self-appointment is that he, being

BROADENED FIELD FACES MEDIATORS

Carranza's Word is Final Point.

His Acceptance Surprises Officialdom.

(By Times Special Wire.)

Washington, April 29--The American people in the Mexican crisis that brought Carranza, Coahuila governor, chief, within the scope of proposed settlement plans, presented a broadened field of endeavor to the South American mediators to-day, and it was believed their next move would be to request for an armistice between Carranza and the northern rebels. Carranza's entry into this first big attempt at mediation was considered an attempt to solve in a peaceful and friendly way the difference between Mexico and the United States. It was

INSULTED SHERIFF

And Now He Is After the Main Street Carters.

Issued a Warning to Them This Morning.

Sheriff Middleton this morning issued an ultimatum to the carters who frequent the stand on Main Street in front of the Court House, and this ultimatum was received with fear and trembling by them, particularly the several responsible for it being issued, and who little realized yesterday when they issued such a ridiculous ultimatum, that they were tampering with fire. A larger number of carters than usual were waiting for a call at the stand. The result was that many of their carties on John street, and finally the driveway from the Court House, was cut off. The sheriff, in this electric tunnel, wished to proceed down John street from the Court House, when he reached the street, he requested the carters to make a passage for him, and was met with a refusal, insults and other offenses of the flaunting of authority. Finally, he recognized the sheriff and his anger was made out of that. But he did not appear the sheriff. This morning he looked up the by-law as issued in the county clerk's office and found that the carters had no authority to stand on John street. Then did he draw up the ultimatum, threatening to prosecute the first carter to break the by-law and the sheriff will go to it.

Breaking of the matter to several of the officials this morning, the sheriff was informed that this kind of trouble was not new at all. In fact, several of the carters took a delight in it. An agitation has commenced to break the by-law and force the carters away from the upper stand of the sheriff's stand he would rather see the men another chance.

AID FOR MOTHERS

Lloyd-George Will Increase Maternity Benefit.

(By Times Special Wire.)

Lloyd George, in his forthcoming statement on the budget, will reveal the maternity benefit provided in the Insurance Act from \$6.25 to \$25. This comes from a well-known source. Presumably the Chancellor hopes the new grant will help make the insurance act popular with the working classes.

It is computed that, in twelve months, the new maternity benefit will be the advantage of the act, entails an expenditure on this account alone of \$5,000,000.

STORES ENTERED

Midnight Visitors Got Away With Some Goods.

Two stores were broken into during the night, and in each case no clue was left that would give the police any idea who the culprits were. The cellar window of a grocery store owned by William Durand, corner Ferguson avenue and Perth street, was broken, and by this means things obtained access to the store and carried away a quantity of cigars, \$2 in money and several jars of jam.

Two men were noticed entering suspiciously in the doorway of J. M. Plunkett's hardware store, 1186 Perth street, at a late hour last night. This morning the front door was discovered open and a number of knives, and spoons, valued at \$25, were missing from one of the show cases.

CHIEF PEDLER

Former Hamilton Man's Good Work At Fire.

North Bay, Ont., April 26--Fire which started at midnight Wednesday damaged the main street buildings owned by P. J. Martine and P. Adams and insured by Loring & Mackie, furniture dealers, O. Poirous, confectioner, P. J. Martine, undertaker, T. B. Adams, clothier. Most of the damage was done in the smoke and water. Loring & Mackie, \$3,000; Phillips Adams, \$5,000; P. J. Martine, \$2,000; Poirous, \$500, all fairly well covered by insurance. That the loss was greater was due to the great work done by the fire department, led by Chief Pedler, one of the Hamilton fire department.

A LUCKY ESCAPE.

Joseph Keenan, a farmer of Glanville, while driving into market this morning with a colt which he was breaking in, suddenly lost control of the animal, and it dashed down the Jolley Cut, throwing him out near the top of the Ferguson avenue steps. Mr. Keenan was rendered unconscious for a short while and the horse was stopped by a driver of one of the city's quarry wagons. Mr. Keenan recovered, and was shaking his head at the badly hurt. He proceeded to take the horse into the city.

TO ASK MR. RICHARDSON TO COME BEFORE BOARD

To Discuss the City Hall Bookkeeping System With the Board of Control.

Fine of \$200, Imposed on a Boy, Was Remitted This Morning.

At this morning's meeting of the Board of Control, Controller Morris referred to statements which were published in the Times, and said that criticism charged had been made against the City Hall system, and he himself had walked a short distance with Mr. Richardson, and had been told by him some of the statements published yesterday.

He moved, and was seconded by Controller Cooper, that Mr. Richardson be asked to appear before the Board.

Controller Cooper explained that when he desired to introduce a "quick cost" system--which was not provided for in Mr. Richardson's system--and he, with Messrs. Bower, Moore and Brennan had a conference, and outlined a system whereby the cost could be quickly ascertained. Mr. Richardson agreed that this system would not interfere with his system.

Controller Morris asked Aid. Robinson, who was present, would state if the Board could in any way assist the special investigating committee in their work, suggesting a conference between the Board and the committee.

Aid. Robinson said that their work was too difficult and complicated to delve into properly before the Board, but would be glad if the Board would authorize the committee to have Mr. Hines as their assistant, and to engage another young man whom they had in view.

He was told his committee already had this authority, and would agree to Mr. Hines assisting them if they

discovered that his employment in this work would in no way interfere with the office routine of the Works Department.

A delegation from the Trades and Labor Council again urged the appointment of a scaffolding inspector, and threatened to apply to the Legislature if the Board did not comply with their request.

The were not satisfied with the arrangement provided in the building by-law, where the Building Inspector was authorized to inspect scaffolding. It was decided to instruct Inspector Anderson to pay particular attention to the scaffolding and to request the Mayor, Mr. Anderson and City Solicitor Waddell to consult on the matter of framing a by-law whereby inspecting scaffolding must have guards surrounding them and must be capable of carrying a certain weight.

The delegation also brought up the matter of having convicts undertaking coal from the cars at the Beach station, where other men were looking for employment.

The Board decided that the question be talked over with City Clerk Kent.

Faulin & Mackay, contractors, who are doing the grading work on the new McMillan bridge, exhibited that they had a cut on the west side, where there was 4,200 yards of brick clay to be removed, and they requested the Board for filling in purpose. They were later granted to give the 4,200 yards of clay to Fred Bros. in return for 4,200 yards of soft earth, and their request was granted.

It will be remembered that a young lad, McDermott, was fined \$25 for selling liquor in the east end from a wagon owned by Gray. This employee was later arraigned and fined \$200. To a great extent the employee's conviction came about through his honesty, and Crown Attorney Washington.

Mr. K. C. asked the board to order the return of the money, and remarked that Magistrate Jelfs imposed the fine of \$200 in the second case in the hope that the board would return the fine.

Controller Morris observed that this kind of traffic was the greatest cause of the east end, and that the police could keep good order among the foreigners if this liquor traffic were wiped out.

Mr. Washington said that he had lost his position and thus far had been unable to obtain another.

On the motion of Controller Cooper, seconded by Controller Gardner, it was decided to return the \$200 with the distinct understanding that the board would not take this course if a similar case occurred in the future.

The report of City Engineer Macaulum on the best power system for the Ottawa street school was that a power plant to get it, John Fraser, 145 Lebeca street, was attempting to enter the City Hall this morning by the window route when he attracted the attention of Constable Fraser, who was carrying his beat on the market.

When asked what he was doing, Fraser explained that the \$100 was owing to him by the city, and as they made no effort to give it voluntarily, he had decided to take the City Hall by storm.

He was taken to the police station, charged with vagrancy, and his sentence was suspended on account of this was later changed to insanity. He was removed to the jail, and will be taken to the Asylum tomorrow morning.

J. H. McGlen, city relief officer, was granted a further leave of absence for one month on account of ill health.

The recommendation of the fire chief that for chemical hose the tender of A. J. Wright at 35¢ cents per foot be accepted will be acted upon.

XII. Regiment, Attention!

Every member should have a swager stick for the next parade. Some nice ones with the regulation crest are sold for 35 cents at peace officer's store, the headquarters, 197 King street east.

MENTION NAMES FOR JOBS AT CITY HALL

James Weeden and Ex-Ald. Ryan Mentioned for Chief Positions.

East Enders Will be Kept Busy Paying Local Improvement Rates.

(By Times Special Wire.)

While final arrangement in the reorganization of the Board of Works has not been decided on, names are being freely mentioned by those interested as probable appointees. There is not much doubt about the position of secretary. Charles Stewart is filling that position, and will undoubtedly be given it permanently at an early date. The principal interest is in connection with the resumptive job of street commissioner. While there is talk of an outside man, there are a number in the department now who are in line for it already. James Weeden, general superintendent of outside work, is being considered, particularly as he was ex-Secretary Brennan's right-hand man, and there is a strong possibility that he will land the position.

It is also likely, from an announcement made to-day by the officials of the department, that the new purchasing agent and cost accountant, couched under the reorganization plan, will be an inside man. The only person mentioned for this job now is A. Moore, who was engaged to place the system on a sound basis after S. C. Richardson, accountant, had resigned. The position of purchasing agent is an enviable one and at various times during the past year efforts have been made by members of the council to land this. One of the applicants was City Engineer Macaulum. There was considerable discussion on several occasions that such an official be appointed, but until Aid. Robinson's investigation started no action was taken. The chief purchasing agent was taken.

MR. RICHARDSON AND THE TIMES INTERVIEW

A Criticism of the Administration.

No Charge Against W. C. Brennan.

(By Times Special Wire.)

In the Times of yesterday appeared an interview by one of its reporters with Mr. Sinclair Richardson, who, by the early part of 1912, was engaged by the city to install a system of bookkeeping and accounting for all departments of the city hall, standing on the Board of Works Department.

A system was devised by Mr. Richardson which was put into operation in the month of April, 1913, as regards the Board of Works Department, but Mr. Richardson has not been called upon since that time to make any checking up of the system to see if it is working properly, or to suggest any alterations in detail, which might be necessary to properly work out the system. The wording of the interview has been taken from some readers as an attack upon Mr. W. C. Brennan, who has recently resigned from the position of secretary of the Works Department. Mr. Richardson positively says that he made no statement of any nature against Mr. Brennan or upon his honesty of Mr. Brennan or upon his

But Will Be Sent to the Asylum Instead.

Believing that the city owed him a large sum of money, and being unable to get it, John Fraser, 145 Lebeca street, was attempting to enter the City Hall this morning by the window route when he attracted the attention of Constable Fraser, who was carrying his beat on the market. When asked what he was doing, Fraser explained that the \$100 was owing to him by the city, and as they made no effort to give it voluntarily, he had decided to take the City Hall by storm.

ON LIQUOR ACT

Magistrate Jelfs' Book Will Soon Be Published.

The Carwell Publishing Company, of Toronto, law book publishers, yesterday purchased the sole rights to publish Magistrate Jelfs' new book on the liquor license act. The book has been completed and is now in the hands of the printers. The Magistrate is receiving congratulations on all sides for his success with the edition, which is considered one of the most complete ever written. This is the second one he has completed, the first being some years ago.

MME. NORDICA IS SINKING

(By Times Special Cable.)

Batavia, Java, April 30--Madame E. Lillias Nordica, who arrived here nearly a month ago, has had a relapse and is sinking.

The doctors are up all hope of her recovery. She had engaged passengers from the ship to her husband, Geo. E. Young, of New York, had expected to meet her.

Mr. E. G. Wilson, contractor, Burlington avenue, is out in a fine new Jackson touring car.

PAID ALDERMEN

West Enders Say People Favor the Idea.

Aldermen from the west end made an announcement to-day, at the city hall, that a general canvass among their constituents should not only be a person against the aldermen being paid \$200 annually, providing payment did not commence until 1915. "Most of the people I talked to thought the aldermen were getting something now," said one councillor. "I am willing to bet the question will be decided in one month, although I was utterly opposed to it in the beginning. The people were shaking up the aldermen and the aldermen will be asked for a decision in June."

In the Times of yesterday appeared an interview by one of its reporters with Mr. Sinclair Richardson, who, by the early part of 1912, was engaged by the city to install a system of bookkeeping and accounting for all departments of the city hall, standing on the Board of Works Department.

A QUIET MAY DAY

No Chance of Labor Trouble in Hamilton.

Although Some Trades Are Wanting More Pay.

To-morrow is May Day. It is the day of possibility, it is the day of strikes. If there are to be any strikes, they are to be any strikes occur on this date. In Hamilton this year May Day will be quite a peaceful one, unless in the drying hours of the month of April some men decide to go after an increase, which is particularly unlikely, in view of present conditions. The plasterers of Hamilton are not satisfied. They have been receiving 42¢ cents per hour. They demand 45¢ cents. Already several conferences have been held in regard to the matter, but a settlement has not been reached. The Times learned this morning that a strike was out of the question, and with practically every body satisfied to have work, and not mention increases, it is highly probable that May Day will be like any other working day, eight or ten hours as it may be, and no grumbling. Of course there are several other trades after more money, but certainly not in a strenuous way.

REDUCED THE FINE.

Judge Monck's slitting division court yesterday afternoon, heard an appeal entered by Thomas Landers against a decision of Magistrate Jelfs finding him guilty of furiously driving a horse. Judge Monck did not up the appeal, but he did reduce the fine. The magistrate imposed a \$40 penalty, but Judge Monck cut it down to \$20.

AN EARLY ELECTION.

The Toronto Mail and Empire this morning announced that although the Ontario Government had not actually decided on an appeal to the country this summer, the Conservative members of the Legislature generally left for their homes yesterday anticipating an early and short campaign, and our contemporaries state that "the real object will be to face each other in the last week in June." We will not be surprised if the prediction of the Mail and Empire comes true. The Government has taken considerable credit to itself for putting the Workmen's Compensation Act, although in reality the credit for this belongs to Mr. Rowell and his associates, who persisted in pushing the Government to act in the matter; but it hopes to get the support of the workmen because of the passage of the measure. Strong evidence that it will be the passage of the Redistribution Bill in the last hours of the House. Large as is the Government's majority, it evidently feared to face the people on anything like equal terms with the Liberals, and it has deliberately planned to rob them of three seats. Even the Toronto World, thick-and-thin supporter of the Whitney Government, cannot forgo to regret that the Government has not taken such a germinal seed should have been thought necessary. Dealing with the elimination of Centre Bruce, the World says:

If Mr. William McDonald, of Centre Bruce, makes an excellent appeal to the constituency which he may be called upon to, by at least one, as he did in the Legislature yesterday, he should return to the House without difficulty. He was the cause of what has been called the redistribution or gerrymandering of Bruce County, and his readiness to do so, in the face of his good humor, his sound sense and resourcefulness, and his admirably characteristic of a man who has made himself respected and admired on the Government benches as well as on his own side.

It adds that "it is to be regretted that the Whitney administration should lead grounds for the shameful charge." The question will be asked, why should the country be asked to elect a man who has been readjustment is fully as necessary. It will be asked if the Government is losing faith in itself, or if Conservatives are losing faith in their own cause. The answer is, why should the country be asked to elect a man who has been readjustment is fully as necessary. It will be asked if the Government is losing faith in itself, or if Conservatives are losing faith in their own cause.

But there are other signs of decadence than this gerrymandering. Hon. Mr. Hanna is still under a cloud. His refusal to have his campaign contribution dealings with Contractor Taylor investigated, and his latest action to check inquiry into his relations with Inspector Snider in an effort to prevent the Scott Act from coming into force where it was contested. A corrupt bargain with the liquor interests was charged, but Mr. Hanna again denied the charge, and there is any other conclusion than that this member of the Government is guilty of all the charges alleged against him. He is innocent, he would be the first to demand investigation.

It is to be hoped that Mr. Hanna will be brought on, Ontario is not so Conservative as the members of the House would make us believe. There is enough honesty, fair play and justice in the Province to make it impossible to punish, extravagance, dishonesty and stupidity and mismanagement rebuked. The Liberal Opposition, small in number, has shown itself during this session of the Legislature as the support of all Liberal principles, able in debate, and fearless in maintaining the right against the wrong.

The Liberal leader has proved himself as a statesman and as a man who is broad and considerate above any member of the Ontario Government. He is not a politician of the tricky sort, but a man who has the best interests of the people of the Province at heart. He is a man who is a champion of their needs and their wants, and who will not spare himself to see that they receive the good government that they deserve. With such a leader at the head of the Province have no need to fear the verdict of the people, come when it may.

The municipal debts of Montreal, according to the Montreal Gazette, including the recent issue in London of £1,500,000 of 4½ per cent, according to the statement of the city treasurer, is £1,548,000, or, roughly, \$7,245,000. Outfielder Sheppard Expected Here To-day

Britannia Park Still Covered With Water, Game Is Delayed

Sheppard, the New Outfielder, Is Expected to Arrive Here To-day.

Despite the fact that Old Sol is shining forth in bright array there will be no game to-day at Britannia Park between the Rowing Club and the Hamilton Athletics. This information was given out this morning by Robert Kerr, but he did admit that if the weather stays like it is to-day there is every chance of a game with the Strollers of Toronto to-morrow.

The players had a good practice yesterday at the East End Y.M.C.A. playing basketball, and this kind of practice will be indulged in until the park is in fit shape for ball practice.

Sheppard, the new outfielder who was signed yesterday, is expected to arrive some time to-day. Trapsaw was wired to him yesterday afternoon and Manager Yates is counting on using him in to-morrow's game should one be staged.

Larry Corrie is still a hold out, and according to recent rumors he is likely to remain one. Harry is satisfied with the Hamilton team, and its present manager, but the trouble is that he thinks he can do better financially in Toronto, on account of the short season here.

The Rowing Club game in Brantford yesterday was called off on account of wet grounds, and their game to-day will also be cancelled. There is a likelihood of the Seagulls lining up with the Hamilton team some day next week, weather permitting.

The Canadian League will open in St. Thomas on May 6th, instead of May 7th, as previously announced. It is reported that the Hamilton team will attend the opening game.

Brantford, April 29.—H. L. Leroux, with whom "Habe" Deane has been associated for some time, has been signed and ordered to report to the club. He is expected to start his new job having formerly seen service in the south Michigan League, while last year he was with the Hamilton team in the Western League. Matt Lamond will be retained as second string catcher.

Manager Deane has worked out Eddie Taylor as a pitcher. Taylor has a great spit ball, as well as a good assortment of other pitches, and Deane is confident that he will equal or even exceed last year's pitcher, Dick of London. He will be available as an infielder in an emergency, while Deane will be able to use him in the box at any time to relieve his pitchers, using one of the catchers as his man. This move will strengthen the team. Two of the present pitchers will have to leave the team. One of the new players to be added to the team is a pitcher, and in this regard is between Connel, Chas. and Worley. Wagner and Deitz will fight it out for second.

Ottawa, April 29.—The Canadian Baseball League season will open at St. Thomas on Wednesday, May 6th, instead of May 7th, as originally expected. As his local rival, the Duke of Connaught, will be in St. Thomas on that date the Saints expect Ottawa to begin the series early in advance, to which the Senators have given their consent. It is expected that the Governor-General will attend the game. He has never witnessed a baseball game in Canada. President Fitzgerald was notified to-day that Ottawa would agree to the advancement of the opening date.

London, April 29.—The early start of the South Michigan spring training killed off of the four exhibition dates for the London baseball club this week. It is the main reason why the manager Retelling has been forced to cut the "S. O. S." to the club yesterday. The crowd at Washington, W. Va., has been small and to-day's game was declared off with the hope of getting a better crowd this afternoon for the final game.

With fine weather, however, for Saturday and Sunday Manager Retelling expects to make up for early losses at Windsor and Detroit.

While the directors of the club are highly pleased with the condition of the players and the fact that they do not feel the monetary loss as much as "Doc" Retelling, who had hopes of making a big thing out of the trip a profitable one for both owners and players.

When the team leaves this evening they will go to Columbus, Ohio, to remain over night and proceed to Detroit on Friday morning. While in Windsor they will stay at the King George Hotel, in fact they will put up on the Canadian side during the two days' stay at the hotel.

Further Albert Retelling will be recalled this evening and will not be brought on any further, leaving the pitching staff composed of two of the handers in Nick and Steiger, and three right handers in Retelling, Ham-

mond and Hebe. The quietness of mondays will undoubtedly form a bearing department in the league and backed up by excellent physical condition should win many early season games.

The two games at the border are a great deal of interest. The tests will be witnessed by many London fans at Windsor and Detroit. The local club director have arranged for a special car to convey the team and officials on Sunday night after the game in Detroit, to London.

Langton and Becker Are Going West

Erkine Battery Men to Play With Virden, Manitoba, Team.

When the City League opens on Saturday at 2 o'clock the fans who are expected to see Langton and Becker work for Erkine against the Y.M.C.A. will be somewhat disappointed, as they have decided not to play City League this season. Langton and Becker have been corresponding with a western team in the Twilight League and will leave for Virden on May 11th. Langton was with the western team last season and pitched and won twenty-seven games. When leaving he was signed up for this season but refused to go back until Becker received a contract with the Virden team and this arrived on Monday.

Just who Manager Walter will have to use on May 11th is not yet known until to-morrow. Becker may get into the game and if so Muckler will do the leaving for the club boys.

Backlash is leaving for Stratford next week and he will also be expected to see Langton and Becker work for Erkine against the Y.M.C.A. at Windsor on Friday morning. While in Windsor they will stay at the King George Hotel, in fact they will put up on the Canadian side during the two days' stay at the hotel.

Smith and Perry Again

Have de Grace, April 29.—It was announced here yesterday that Becker and Perry will leave for Stratford next week and he will also be expected to see Langton and Becker work for Erkine against the Y.M.C.A. at Windsor on Friday morning. While in Windsor they will stay at the King George Hotel, in fact they will put up on the Canadian side during the two days' stay at the hotel.

The Rowing Club-Athletic Game Has Been Cancelled

Hamilton Lunch on Three Games From Triple Play and Won Leather Goods Team

Many Big Scores Rolled in Brunswick League Last Night.

In the big city ten-pipe league, which is being rolled on the Hamilton Bowling and Athletic Club alleys, the scheduled games were rolled. The Princess Theatre and Hlop's Kandy Kids hooked up, the show men winning all three games. Monday was high, with 350, closely followed by Anders, with 350.

In the second game Hamilton Leathers and Hamilton Lunch rolled, the latter winning all three games. Roy Branton carried off the honors, with 545. The scores follow:

Hlop's Kandy Kids (won 9-0)
Slater 127 124 475
Gray 144 162 138 489
Hoot 170 125 111 466
